

- Rocker arm cover for adjusting to adjoin components
- Blank finished by frictional grinding
- Surface and casting structure free of defects.
- Limit samples need to be defined for cutting defects with no function effects.**
- Lateral off-set mold parting line max. 0.2mm
- Max. demolding burr 0.2mm.
- In the ground
- Ejector-pins max. 0.5mm depth
- Not dimensioned thickness 4.75mm
- Not dimensioned areas and geometries refers to 3D-data.
